1. Nature of Operations and Going Concern

Granada Gold Mine Inc. ("Granada" or the "Company") is domiciled in Canada and was incorporated on July 17, 1985 under the Company Act of British Columbia. The Company is a publicly-traded-company with its shares listed on the TSX Venture Exchange ("TSXV"), the Frankfurt Stock Exchange, and the US over-the-counter ("OTC") market. The principal business of the Company is the acquisition, exploration and development of mineral property interests. The Company's head office is located at 2875 Avenue Granada, Rouyn-Noranda, Quebec, J9Y 1J1.

These financial statements were reviewed, approved and authorized for issue by the Board of Directors on May 20, 2020.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral deposits that are economically recoverable. The Company will periodically have to obtain additional funds to continue its exploration activities, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continuing existence is dependent upon the discovery of economically recoverable reserves and resources, the preservation of its interest in the underlying properties, the ability of the Company to obtain necessary financing to complete exploration, development and construction of processing facilities, obtaining certain government approvals and the achievement of profitable operations.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, social licensing requirements, unregistered prior agreements, unregistered claims, aboriginal claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, and renegotiation of contracts.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported revenues and expenses and statement of financial position classifications that would be necessary were the going concern assumption deemed inappropriate. Such adjustments could be material.

As at March 31, 2020, the Company had not yet achieved profitable operations, has an accumulated deficit, has a working capital deficiency and expects to incur further losses in the development of its business.

1. Nature of Operations and Going Concern (cont'd)

The Company has a need for equity capital and financing for working capital and exploration and development of its properties. Because of continuing accumulated operating losses and a significant working capital deficiency, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. It is not possible to predict whether financing efforts will be successful or if the Company will attain profitable levels of operations. These conditions indicate the existence of material uncertainties which cast significant doubt about the ability of the Company to continue as a going concern.

2. Basis of Preparation

(a) Statement of Compliance

The Company prepares its financial statements in accordance with Canadian generally accepted accounting principles as set out in the Handbook of the Canadian Institute of Chartered Accountants ("CICA Handbook"), which incorporates International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). Accordingly, these condensed interim financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including IAS 34, as required by National Instrument 52-107 sec. 3.2(1)(b)(ii).

(b) Basis of Presentation

These financial statements have been prepared on the historic cost basis, except certain financial instruments that have been measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results may ultimately differ from these estimates. Of particular significance are the estimates and assumptions used in the recognition and measurement of items included in Note 4.

(c) Functional and Presentation Currency

For the purpose of the financial statements, the results and financial position are expressed in Canadian dollars, which is also the functional currency of the Company. Transactions in currencies other than the functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Foreign exchange gains and losses are presented in the statement of loss. The Company does not have any foreign operations.

3. Significant accounting policies

The accounting policies set out in the Company's audited financial statements for the year ended June 30, 2019 have been applied consistently to these interim condensed consolidated financial statements.

4. Significant Judgements, Estimates and Assumptions

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions based on currently available information that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the year. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual results could differ from those estimates. By their very nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of future periods could be material.

In the process of applying the Company's accounting policies, management has made the same judgments, estimates, and assumptions which were set out in the Company's audited financial statements for the year ended June 30, 2019.

5. Deposit – Long-term

As at March 31, 2020 and June 30, 2019, the Company has a non-interest-bearing cash deposit of $171,800 with the Quebec government as a guarantee for the restoration of the Granada mine site. The Company has estimated that it has no material decommissioning obligations as at December 31, 2018.

6. Exploration and Evaluation Projects

The Company has determined that as at March 31, 2020 the following projects have not met the technical feasibility and commercial viability criteria to be capitalized and classified in mining properties. Accordingly, the Company has expensed all exploration and evaluation expenditures in the year. As of March 31, 2020, and June 30, 2019, the Company did not hold any assets classified as mining properties.

Granada Property, Quebec, Canada

The Company holds a 100% interest to certain mining leases and claims. The mining leases are subject to a 2% Gross Metal Royalty ("GMR"), ½ of which may be purchased for $1,000,000 and a 1% Net smelter royalty (NSR) and 23 of the original mining claims are subject to a 1% NSR. Additionally, there is a 2% NSR on 4 properties optioned from the D2D3 Group ("D2D3") in 2010, half of which may be purchased for $1,000,000.

(Expressed in Canadian Dollars)

8. Secured Loans Payable

On August 4, 2015, the Company entered into two loan agreements and a Supply and Services agreement for proceeds totaling $800,000.

The first loan agreement is with an existing shareholder and is a demand loan for proceeds of $200,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should the Company reach commercial production while the loan remains in place. In that event, the gold is to be valued at US $800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

The second loan is from a company owned by a director of the Company and comprises a $100,000 demand loan also with a three-year term at an interest rate of 8% calculated monthly and payable annually. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

8. Secured Loans Payable (cont'd)

The third agreement is a Supply and Services non-interest-bearing loan for $500,000 over the 12 months following the execution of the loan agreement from a company owned by a director of the Company. The lender has the option to obtain loan principal repayments including interest as applicable, in gold valued at US $800 per ounce if the Company reaches commercial production. The Supply and Services loan is to be used for specific projects on the property. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

On November 11, 2015 and January 8, 2016, the Company entered into a second and third loan agreement with an existing shareholder for a demand loan for proceeds of $200,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should the Company reach commercial production while the loan remains in place. In that event, the gold is to be valued at US $800 per ounce. The lender also has the option to participate in future financings but is not obliged to do so. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender.

On November 22, 2018, the Company entered into a convertible loan agreement with an existing shareholder for a demand loan for proceeds of $250,000 over a three-year term at an interest rate of 8% calculated monthly and payable annually. The loan will automatically renew for an additional three-year term until such time as the lender agrees to terminate the agreement. The lender also has the option to obtain interest and principal loan repayments in gold rather than cash should the Company reach commercial production while the loan remains in place. In that event, the gold is to be valued at US $800 per ounce. The outstanding loan balance is subject to repayment in full at any time at the sole discretion of the lender. The outstanding principal amount of the loan is convertible into common shares of the Company at the option of the lender at any time at a conversion price of $0.05 per share for the first year and then $0.10 per share starting in the second year and until maturity. The conversion feature has been classified as an equity instrument with an estimated value of $74,856 and has been included in equity reserves on the statement of financial position. The liability portion of the convertible debentures was estimated to be $175,144 and will be accreted to its face value over the 3 year term of the loan using an effecting interest rate of 20%. Accretion and interest expense relating to this loan totalled $22,135 for the year ended June 30, 2018 (2017 - $Nil).

The Granada Gold property is registered as security against these loans. As a triggering event has not taken place, no value has been attributed to the derivative relating to the right of the lenders to demand repayment in gold valued at US $800 per ounce.

(Expressed in Canadian Dollars)

9. Trade and Other Payables and Provisions

	March 31, 2020	June 30,2019
Trade payable	176,486	378,773
Due to related parties	1,242,211	1,041,256
Part XII.6 taxes and interest	752,786	752,786
Flow-through indemnification provision	3,273,631	3,273,631
	5,445,114	$ 5,446,446

(i) The Company has estimated potential Part XII.6 taxes in relation to unspent flow-through expenditures for fiscal years 2011 to 2017. During the year ended June 30, 2019, the Company had accrued an additional $35,847 (2018 - $230,763) for Part XII.6 taxes, interest and penalties on the shortfall.

(ii) The Company has estimated potential indemnity in relation to unspent flow-through expenditures for fiscal years 2011 to 2017. During the year ended June 30, 2019, the Company accrued an additional $419,252 (2018 – $705,880) for indemnification and interest on the shortfall.

10. Share Capital (Continued)

On October 18, 2018 the Company closed a private placement in which it issued 2,942,140 units at $0.15 per unit for gross proceeds of $441,321. Each unit is comprised of one common share and one common share purchase warrant exercisable at $0.18 per share for a period of three years. Certain directors and officers of the Company participated in this private placement by acquiring 2,192,140 units for $328,821.

On November 6, 2018 the Company closed a private placement in which it issued 3,994,666 units at $0.15 per unit for gross proceeds of $599,200. Each unit comprises one common share and one common share purchase warrant exercisable at $0.18 per share for a period of three years. Certain directors and officers of the Company participated in this private placement by acquiring 173,333 units for $26,000.

On December 21, 2018 the Company closed a flow-through private placement financing raising gross proceeds of $500,000. The Company issued 2,631,579 flow-through shares at a price of $0.19 per flow-through share. Finder's fees totaling $35,000 and 200,000 finder warrants were paid in connection with the financing. Each finder warrant is exercisable at $0.155 per share for two years from closing.

On May 29, 2019 the Company closed a flow-through private placement financing raising gross proceeds of $250,000. The Company issued 2,083,333 flow-through shares at a price of $0.12 per flow-through share. Finder's fees totaling $10,000 and 166,166 finder warrants were paid in connection with the financing. Each finder warrant is exercisable at $0.12 per share for two years from closing.

On September 27, 2019, the company closed a private placement in which it issued 9,253,800 units at $0.10 for gross proceeds of $925,380. Each unit is comprised of one common share and one common share purchase warrant exercisable at $0.15 for a period of three years. Finder's fees totaling $39,900 and 469,000 finder warrants were paid in connection with the financing. Each finder warrant is exercisable at $0.15 per share for three years

On January 3, 2020 the Company closed a private placement financing raising gross proceeds of $200,000. A total of 2,000,000 units were issued with each unit consisting of one common share in the capital of the Company and one share purchase warrant. Each warrant entitles the holder to purchase one share of the Company for a period of two years from closing at an exercise price of $0.15 cents per share.

11. Reserves - Options

The Company's Stock Option Plan (the "Plan") provides for the granting of stock options to directors, officers, employees and consultants of the Company. Share options are granted for a term not to exceed ten years from the date of grant. All options are subject to a four month holding period from the date of grant if granted at the price lower than the market price; options granted at market prices are not subject to the hold period. The Plan is administered by the Board of Directors, which determines individual eligibility under the Plan, number of shares reserved for optioning to each individual (not to exceed 5% of issued and outstanding shares to any one individual) and the vesting period. The maximum number of shares of the Company which may be reserved for the issuance shall be 10% of the issued and outstanding shares at the time of the option grant.

The Company records the fair value of stock-based compensation on the granting of stock options over the period in which they vest. The fair value is determined using the Black-Scholes option pricing model.

(Expressed in Canadian Dollars)

12. Related Party Transactions

The Company determined that key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the company. The Board of Directors (executive and non-executive), President and Chief Executive Officer and Chief Financial officer are key management personnel.

(Expressed in Canadian Dollars)

12. Related Party Transactions (continued)

The remuneration to key management personnel during the nine months ended March 31, 2020 and December 31, 2018 is as follows:

	March 31, 2020	March 31, 2018
Key management compensation	$562,466	$562,237
Stock-based compensation	840,000	-
	$187,079	$187,215

a) The Company retains the services of a company owned by an officer and director of the Company to carry out exploration work on its resource properties and for management services. During the nine months ended March 31, 2020, the total amount for such services provided was $330,001 (2019 – $330,001) of which $330,000 was recorded in exploration expenses and $1 (2019 - $1) in management fees.

b) The Company retains the services of two director and two officers to carry out administrative services. During the nine months ended March 31, 2020, the total amount for such services provided was $232,466 (March 31, 2019 – $232,337) which was recorded in consulting fees.

13. Contingencies

The Company's operations are subject to governmental laws and regulations regarding environmental protection. The environmental consequences are hardly identifiable, whether with the outcomes, the impacts or the deadline. As at March 31, 2020 and to the best knowledge of its management, the Company is, in conformity with the laws and regulations.

a) The Company is partly financed by the issuance of flow-through shares. However, there are no guarantees that the funds spent by the Company will qualify as Canadian exploration expenditures, even if the Company has taken all the necessary measures for this purpose. Refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

   Moreover, tax rules regarding flow-through investments set deadlines for carrying out the exploration work no later than the first of the following dates:
   i) Two years following the flow-through investment;
   ii) One year after the Company has renounced the tax deductions relating to the exploration work.

   The Company has indemnified the subscribers of current and previous flow-through offerings against any tax related amounts that become payable by shareholders in the event the Company does not meet its expenditure commitment. See Note 9.

14. Commitments

The Company has consulting service agreements with related parties (certain officers and directors).

i) Effective January 1, 2007, and amended December 1, 2010, May 16, 2013 and March 1, 2015, the Company entered into a management agreement with Grupo Moje Limited ("Grupo"), a company owned by a director and officer of the Company to provide management services of Frank Basa in consideration for a nominal annual fee of $1.

   This agreement also requires that if the agreement is terminated by the Company upon or following a change in control or change of management the Company shall make a payment to Grupo equal to 480 ounces of gold with the dollar amounts to be calculated based on the price of gold on the date of termination of the agreement. As a triggering event has not taken place, the contingent payment has not been reflected in these financial statements.

ii) Effective January 1, 2014, the Company entered into a management agreement with Mineral Recovery Management Systems Corp. ("MRMSC"), a company controlled by Frank Basa and Elaine Basa, to provide project management, engineering and geological services to the Company in consideration of $25,000 per month for the services of Frank Basa and $11,666.67 per month for the services of Elaine Basa. Either party may terminate this agreement by giving a four months' notice to the other, subject to certain provisions of the agreement.

iii) Effective March 1, 2011 and amended February 1, 2012 and March 1, 2015, the Company entered into a consulting agreement with an officer of the Company. The fee for consulting services is USD $8,000 per month. Either party may terminate this engagement by giving four months' notice to the other subject to certain provisions of the agreement. This agreement also requires that if the agreement is terminated by the Company upon or following a change in control or change of management the Company shall make a payment to the consultant of USD $192,000. As a triggering event has not taken place, the contingent payment has not been reflected in these financial statements.

15. Financial Risk Management

The Company's financial risk management policies set out in the Company's audited financial statements for the year ended June 30, 2019 have been applied consistently for the period ended March 31, 2020.

16. Capital Management Disclosures

The Company's Capital Management policies set out in the Company's audited financial statements for the year ended June 30, 2019 have been applied consistently for the period ended March 31, 2020.

17. Subsequent Events

On May 8, 2020, the Company closed the first tranche of its non-brokered private placement financing raising gross proceeds of $818,000. A total of 8,180,000 units were issued at $0.10 per unit. Each unit consists of one common share in the capital of the Company and one share purchase warrant. Each warrant entitles the holder to purchase one share of the Company for a period of two years from closing at an exercise price of $0.12 cents per share.
Certain directors and officers participated in the first tranche closing and purchased an aggregate of 825,000 units for aggregate gross proceeds of $82,500.

On May 12, 2020, the second and final tranche of its non-brokered private placement financing raising additional proceeds of $382,000 by the issuance of 3,820,000 units at a price of $0.10 per unit. The Company has raised total of $1,200,000 in both tranches. Each unit consists of one common share in the capital of the Company and one share purchase warrant. Each warrant entitles the holder to purchase one share of the Company for a period of two years from closing at an exercise price of $0.12 cents per share.

Finder's fees were paid in connection with the private placement in the amount of $15,715 cash and 157,150 broker warrants on the same terms as the purchaser warrants.
